# **Forward-Looking** Information

Certain information in this communication contains “forward-looking information” within the meaning of applicable securities legislation. Forward-looking information may relate to future events or the Trust’s performance. Forward-looking information includes, but is not limited to, information regarding the Trust’s distributions, growth potential and volatility, investor returns, ability to achieve operational efficiencies, objectives, strategies to achieve those objectives, beliefs, plans, estimates, projections and intentions; and similar statements concerning anticipated future events, results, circumstances, performance or expectations and other statements that are not historical facts. These statements are based upon assumptions that the Management of the Trust believes are reasonable, but there can be no

assurance that actual results will be consistent with these forward-looking statements. Forward-looking information involves numerous assumptions, known and unknown risks, and uncertainties that contribute to the possibility that the forward-looking statements will not occur and may cause actual results to differ materially from those anticipated in such forward-looking statements. Some of these risks are discussed in the section “Risk Factors” in the Offering Memorandum. These forward-looking statements are made as of the date of this communication and the Trust is not under any duty to update any of the forward-looking statements after the date of this communication other than as otherwise required by applicable legislation.

CEO and Founder

# Letter from Leadership

At the outset of 2026, performance in the Canadian multifamily sector remained varied as broader macroeconomic conditions continued to reshape rental market dynamics across the country. Within this environment, Equiton's strategy demonstrated resilience, supported by a strong, vertically integrated operating platform and disciplined capital deployment.

Reflecting its durability, the Equiton Residential Income Fund Trust (the Trust) delivered trailing 12-month total returns of 7.74% and 6.69% to Class F DRIP and Class A DRIP Unitholders, including annualized distributions of 6.68% and 5.73%, respectively. These distributions remain characterized as 100% return of capital and continue to align with the Trust's historical distribution profile, supporting tax-efficient cash flow for Unitholders.

As the quarter progressed, operational performance continued to reinforce the stability of portfolio cash flows. More than 300 new leases were executed across the residential portfolio in Q1'26, representing a nearly 60% increase in leasing volume compared to the prior year period, while maintaining ~97% same store occupancy. Amid some of the most competitive leasing conditions in recent years, this level of activity and occupancy speaks to both sustained demand across the Trust's markets and the effectiveness of its asset-level execution.

These results also reflect the integration of new data and analytics capabilities, enhancing operating income growth, efficiency, and decision making across the organization. From on-site teams to leadership, staff now have access to new tools that enable real time monitoring of competitive market conditions, improve work order response times, and streamline leasing and turnover management, supporting consistent portfolio performance across varying market conditions.

Helen Hurlbut  
President and CFO  
/Co-Founder

At Maison Riverain, the Trust's rental development project in Ottawa, the progress toward full lease up of the recently completed first tower reached ~80% during the quarter and is expected to achieve stabilization, a key milestone, in the near term. The Trust also secured Maison Riverain's first commercial tenant, whose long-term lease will help diversify cash flow and advance the building's commercial component while expanding the on-site amenities available to Residents.

Maison Riverain also earned a top industry honour. The project was named CoStar's multifamily development of the year, reflecting its quality and impact on Ottawa's Vanier neighbourhood.

The Trust continued to capture embedded rental upside through unit turnover. During the quarter, an average rent lift of 5.2% on the turnover of 205 units was achieved. This mark-to-market rent growth supports near-term earnings and long-term value creation.

In-place rents increased 3.4% Y/Y even as broader market rent growth remained relatively stable, reflecting the Trust's continued ability to capture rental growth through natural turnover. As at March 31, 2026, the portfolio's estimated gap to market was 22.2%, signifying meaningful embedded rent growth potential.

Recent acquisitions, alongside consistent performance across the stabilized portfolio, contributed to Y/Y revenue growth of 16.5% (\$3M) and net operating income (NOI) growth of 15.1% (\$1.5M) as at March 2026. On a same store basis, revenue totaled \$18.4M and NOI was \$10.0M, representing increases of 1.8% and 2.8% Y/Y, respectively.

Throughout the quarter, the Trust's financing strategy remained a central pillar of its capital allocation framework, supporting a strong balance sheet. The Trust completed three mortgage refinancings during the quarter that generated ~\$20.0M in net proceeds.

The debt to gross book value ratio ended the quarter at 56.4% and mortgage financing remains anchored by the Trust's strategic use of CMHC-insured mortgages, which represent ~97% of total mortgage debt. This positioning supports more stable, optimized borrowing costs and greater capital visibility, enhancing the Trust's ability to pursue emerging opportunities, development activities, and asset optimization initiatives across market cycles.

During Q1'26, Management continued to evolve the Trust's governance and liquidity management practices to support the long-term nature of its residential real estate portfolio. This includes the implementation of the Asset-Aligned Liquidity Framework designed to align redemption activity with the Trust's liquidity profile while continuing to provide Investors with access to monthly redemptions in accordance with the Trust's established process.

The Canadian multifamily sector continues to benefit from structurally supportive long-term demand drivers, maintaining Investor confidence despite a more challenging operating backdrop. Sustained institutional interest in the sector, alongside multifamily's reputation as a defensive, income-oriented asset class, continues to reinforce confidence in the sector's long-term outlook.

As the year unfolds and markets recalibrate, the Trust is well positioned to selectively pursue growth opportunities, supported by its well-balanced portfolio, disciplined and strategic approach to capital deployment, and durable operating platform. This foundation is designed to provide performance and long-term value for Unitholders.

# Maison Riverain Development Update

280 Montgomery Street, Ottawa, Ontario

## Project Overview

Maison Riverain, situated in Ottawa's Vanier neighbourhood, will consist of three high-rise towers adding ~1,100 rental units to the local housing market. With breathtaking views of the Rideau River, Maison Riverain offers contemporary apartments, spacious layouts with quartz countertops, in-suite laundry, large balconies, and key fob entry. Residents will enjoy premium amenities, lockers and bike storage, underground parking, electric car charging stations, and more.

## Q1'26 Highlights

- Tower 1's strong leasing momentum continued, reaching ~80% leased, with stabilization expected in the near term.
- A long-term commercial lease was executed for Tower 1 and lease negotiations are ongoing for the majority of the remaining space.
- Development activities at Tower 2 progressed in line with the construction schedule, supported by continued advancement of structural, exterior, and interior construction milestones.
- Tower 3's Site Plan Approval (SPA) application was submitted to the City of Ottawa in February 2026, representing a key milestone for the project.

In Q1'26, Maison Riverain was honoured with a CoStar Impact Award for the project's commitment to sustainability, operational excellence, and a high-quality Resident experience. It was recognized, alongside projects transforming their communities across North America and the United Kingdom, as Ottawa's most impactful multifamily development. Continued progress on the project advances the underserved Vanier neighbourhood through its sustainability leadership, strong community partnerships, and measurable economic uplift.

Lease up at Tower 1 continued to demonstrate strong momentum, bringing occupancy to ~80% as at March 31, 2026. Leasing activity remained resilient subsequent to quarter end, with 248 total leases executed (~84%) as at May 1, 2026, positioning the tower toward near-term stabilization and increasing its contribution to recurring cash flows. During the quarter, a new digital leasing platform was implemented to streamline the tour booking process and support leasing efficiency as stabilization efforts continue. Concurrently, final municipal infrastructure and landscaping works are expected to be completed in the early spring.

Commercial leasing at Tower 1 advanced meaningfully during the quarter with the execution of its first long-term lease. Lease negotiations are ongoing for the majority of

the remaining space. The addition of a commercial Tenants is expected to enhance the on-site amenity offering for Residents and strengthen the overall quality and convenience of the community, while contributing to the property's long-term income diversification and cash flow stability.

Construction at Tower 2 progressed, with structural work reaching the 22<sup>nd</sup> floor and topping off anticipated in late May or June 2026. Significant advancement was also made on the building envelope, including the installation of exterior wall panels and the commencement of window installation. Interior construction activities continued across multiple areas, including suite corridor separation and lobby framing. Tower 3 continued to advance through the entitlement and approvals process, highlighted by the submission of the SPA application to the City in February. The project is currently under municipal review while design development, unit planning, and amenity programming activities progress alongside the preparation of parking garage tender and permit drawings. Construction commencement is targeted for late 2026 or early 2027.

Leasing and strategic marketing initiatives continue to advance in support of the ongoing stabilization of Tower 1.

# Portfolio Metrics

As at March 31, 2026

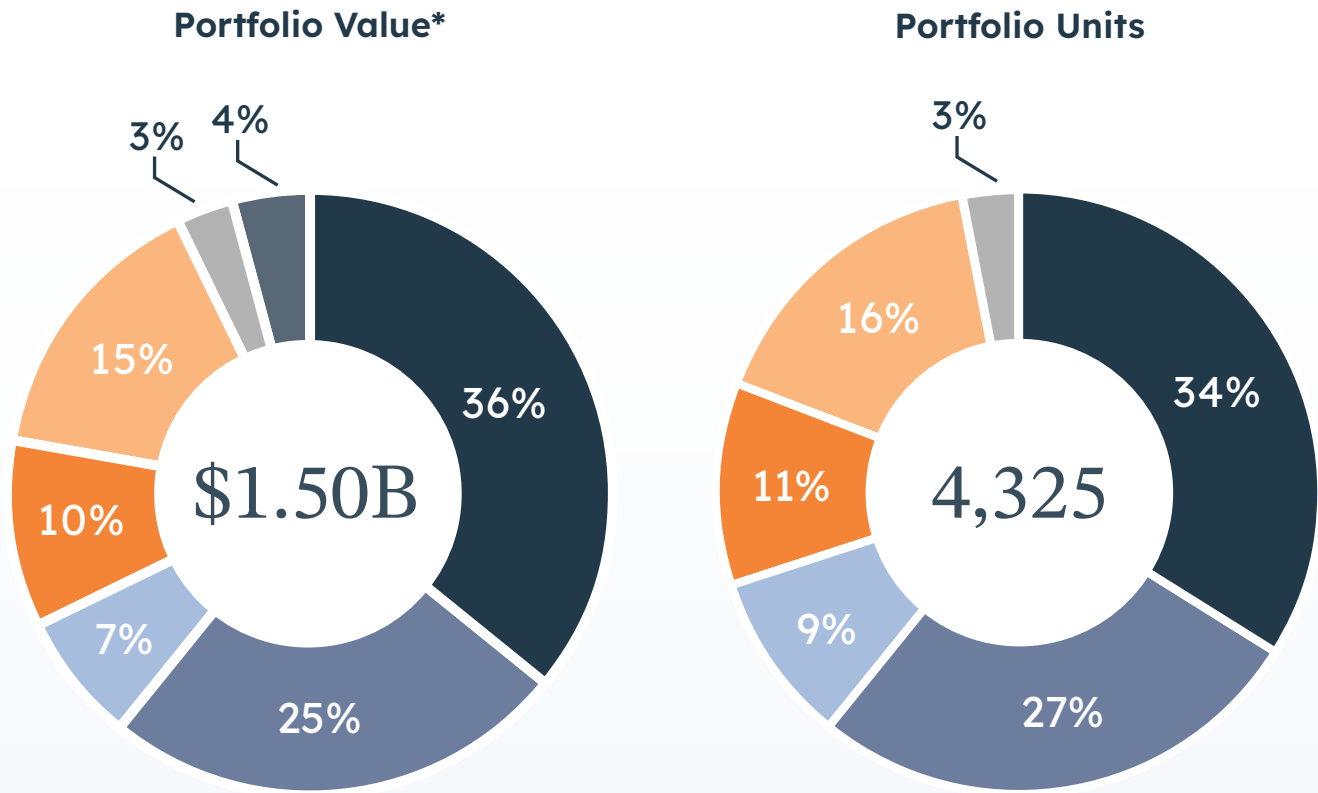

## Portfolio Mix by Investment Strategy

## Portfolio Investment Strategy Breakdown

- **Core:**  
High-quality properties with stable cash flows, high occupancy, and rents at or above market, typically with strong amenity offerings and minimal capital expenditure needs.
- **Core Plus:**  
Properties with stable fundamentals, and rents at or slightly below market that require additional strategic management, including leasing activities, upgrades, and renovations through the capital expenditure program.
- **Value Add:**  
Properties with significant upside potential that are undergoing substantial upgrades, renovations, or operational changes to improve market position, attract higher rents, increase occupancy, and enhance overall value.
- **Development:**  
A property progressing through the development lifecycle, including pre-construction planning and approvals, active construction and post-completion lease-up.

# Summary

## of Results of Operations and KPIs

### Key Transactions and Events

- AUM increased by 15.6% Y/Y to \$1.5B as at March 31, 2026, reflecting continued execution of the Trust's growth strategy. This growth was driven by a combination of accretive 2025 acquisition activity and sustained strong financial and operating performance across the existing portfolio. AUM expansion was further supported by ongoing progress within the Trust's development pipeline, particularly the continued advancement of Maison Riverain where Tower 1 has been delivered and subsequent towers remaining under active development, contributing to overall portfolio growth.
- A key contributor to the Trust's growth and value creation initiatives, Maison Riverain is a three-phase, purpose-built rental development comprising over 1,100 residential units. Tower 1, which received initial occupancy in April 2025, with phased occupancy granted on a floor-by-floor basis, has demonstrated strong leasing momentum since delivery. As at March 31, 2026, Tower 1 was ~80% leased. This reflects the effective execution of the lease-up strategy by the Trust's asset management and operations teams, which was supported by targeted marketing initiatives and disciplined revenue management. Tower 1 is now contributing positively to NOI, with Management expecting further upside as the asset advances through lease-up and drives incremental cash flow.
- Maison Riverain also includes ground level commercial components intended to complement the residential offering and contribute to overall income diversification. During the three-month period ended March 31, 2026, the Trust executed its first commercial lease. Lease negotiations are ongoing for majority of the remaining space, providing improved visibility on the commercial lease-up. Upon stabilization, the commercial component is expected to generate incremental NOI and provide a meaningful contribution to the asset's cash flow profile, supporting overall portfolio income stability.
- As demonstrated by the Maison Riverain project, the Trust has the capability to execute large-scale development initiatives, reinforcing development as a complementary growth channel alongside acquisitions and supporting long-term value creation for Unitholders.
- The fair value of the Trust's income-producing properties increased \$3.6M as at March 31, 2026, compared to December 31, 2025. The Q/Q increase was primarily driven by value-enhancing capital investments, together with slight valuation gains across the portfolio. Operational performance continued to remain a key driver of value creation, supported by strong leasing execution and disciplined expense management, as well as targeted capital programs that enhanced NOI growth. The Trust's weighted average cap rate for the period was 4.39%, reflecting a modest compression at of 9 basis points (bps) from 4.48% in the prior year period, primarily driven by cap rate tightening in the Trust's Western Canadian portfolio, where market fundamentals and Investor demand for multifamily assets remained particularly strong.
- As at March 31, 2026, total portfolio occupancy was 95.5%, consistent with year-end 2025 levels and inclusive of the units at Maison Riverain Tower 1, which was ~80% leased at quarter end. Excluding Riverain, portfolio occupancy was 96.8%, representing a decrease from the prior year and an increase relative to proportionate occupancy as at December 31, 2025, reflecting improved leasing momentum and the impact of targeted vacancy mitigation strategies.
- The Trust completed three mortgage refinancings during the quarter, including loans secured by 125 Wellington St. N. Hamilton, ON, in addition to the Brantford and Stratford portfolios, generating ~\$20.0M in net proceeds. This activity reflects the Trust's ongoing focus on proactively managing its capital structure and enhancing liquidity to support capital allocation priorities.
- In January 2026, the Trust completed the consolidation of the remaining Class B units into Class C units, further streamlining the Trust's capital structure and unit class composition. As at March 31, 2026, the Trust had approximately 64.4M (December 31, 2025 - 64.4M) Trust Units outstanding, reflecting continued Investor participation and sustained support for the Trust's long-term growth strategy.

## Operating Results and Balance Sheet Management

### Portfolio Operating Performance

- The Trust's portfolio delivered stable operating performance in Q1'26, supported by its vertically integrated asset and property management platform and a continued focus on leasing execution and proactive vacancy management amid evolving market conditions.
- Same store occupied average monthly rent increased to \$1,654, up 3.6% Y/Y, primarily driven by rent increases on natural unit turnover. The Trust continued to benefit from a meaningful mark-to-market opportunity embedded within its in-place rent profile, with an estimated gap to market of ~22.2% as at March 31, 2026. This gap is supported by the Trust's strategic portfolio composition, which reflects a balanced allocation between core and core plus assets and exposure to value-add properties, primarily high-quality legacy rental assets. This positioning provides embedded rental upside accumulated over time, supporting rent stability while maintaining a sustained runway for future rent growth.
- Overall, same store operating revenues increased by ~2% compared to the prior year period, reflecting rental rate growth and continued focus on revenue optimization. Management expects to sustain rent growth through turnover and guideline increases while continuing to expand ancillary revenue streams including parking (+25% Y/Y), cable (+75% Y/Y), and storage (+34% Y/Y).
- Same store operating expenses remained relatively stable in Q1'26, increasing by less than 1% Y/Y. This performance was primarily driven by reductions in utility expenses, including lower hydro and natural gas costs, as a result of Management's implementation of strategic price monitoring and favourable market conditions. These reductions were partially offset by increased advertising expenditure and higher Resident incentives in response to continued competitive leasing conditions. Overall, the results reflect the Trust's continued focus on disciplined cost management and active oversight of controllable expenses, while maintaining operational flexibility to support leasing activity and occupancy levels.
- Same store NOI increased by ~3% Y/Y, with NOI margins expanding by ~50 bps, reflecting the combined impact of stable revenue growth and actively managed operating expenses. The resulting margin expansion demonstrates the Trust's ability to maintain earnings quality despite evolving cost and leasing dynamics, supported by the effectiveness of its operating platform and targeted cost control measures.

### Portfolio Capital Program

- The Trust continued to execute on its suite turnover program in Q1'26, completing 205 unit turns and achieving an average lift on turnover of ~5.2%. While turnover lifts have moderated compared to prior periods, the Trust continues to generate positive rental growth on turnover despite broader market conditions where growth has softened.
- The softening in lifts compared to the prior period is primarily attributable to units previously leased at peak market rents in 2022 and 2023, which upon turnover are resetting to current market levels. Notwithstanding this dynamic, the Trust's ability to sustain positive turnover lift reflects the depth of demand across its portfolio and the effectiveness of its pricing and leasing strategies. The program continues to represent a key driver of revenue growth, supporting the Trust's ability to capture embedded value within the portfolio independent of broader market rent fluctuations.
- In support of its turnover and value enhancement strategy, the Trust deployed ~\$2.3M on unit turnover renovations during the period, alongside a further ~\$1.2M invested in capital improvement projects across the portfolio. Capital deployment is evaluated on a project-specific basis factoring lifecycle, Resident satisfaction measures and return opportunities, with a focus on initiatives that drive rental rate growth, enhance suite quality and maintain the competitive positioning of the Trust's portfolio. This approach reflects a disciplined reinvestment strategy, balancing near term revenue capture with the preservation and enhancement of long-term asset value, while also contributing to an improved Resident experience.

### Balance Sheet and Capital Management

- Prudent debt management remains an integral component of the Trust's capital allocation framework. As at March 31, 2026, a mortgage debt to gross book value of 56.5%, reflects a balanced approach to leverage while supporting continued portfolio growth. The Trust benefits from significant access to CMHC-insured financing, which represented ~97% of total debt outstanding at period end, supporting attractive borrowing costs and financing stability through favourable terms. Debt maturities are strategically staggered to mitigate refinancing risk, with a weighted average term to maturity of 7.34 years, while the majority of borrowings are fixed rate, resulting in a weighted average interest rate of 3.68%, below prevailing market rates.

Maison Riverain  
280 Montgomery Street,  
Ottawa, ON

## KPIs

To assist Management and Unitholders in monitoring and evaluating the Trust's achievements, Management has provided several metrics or KPIs to measure performance and success.

### Occupancy

Through a focused, hands-on approach, Management has maintained strong total portfolio occupancy of 95.5% and same store occupancy of 96.9% as at March 31, 2026. Management remains confident in its ability to sustain strong occupancy levels over the long term.

### Net Average Monthly Rent (AMR)

As at March 31, 2026, the Trust's quarterly market rents remained relatively stable Y/Y at \$2,070 (March 31, 2025 - \$2,059). This stability reflects the continued strength of the portfolio and operating markets, particularly in the context of rental rate softness observed across the broader Canadian multifamily sector. Additionally, the Trust achieved a 6.7% Y/Y increase in total portfolio net AMR, supported by in-place rent growth and turnover uplift.

### Net Operating Income

NOI is a widely used operating performance indicator in the real estate industry. Management expects to increase NOI by generating operating efficiencies, conducting revenue stream assessments, and strategically managing its assets. For the three-month period ended March 31, 2026, total portfolio NOI grew by 15.1% compared to the prior year period.

### Leverage Ratios and Terms

Volatility risk has been managed by fixing the lowest possible interest rates for long-term mortgages, while mitigating refinancing risk by prudently managing the portfolio's average term to maturity and staggering the maturity dates. The Trust's weighted average

mortgage rate increased modestly Y/Y due to new borrowing activity but remained at a favourable 3.68%. Management will continue to follow strict debt service coverage and interest coverage ratio targets.

### Portfolio Growth

Management's growth strategy focuses on the disciplined pursuit of accretive acquisitions to enhance portfolio scale and quality. Following two accretive acquisitions completed in 2025, the Trust is prioritizing expansion in Western Canada, reflecting confidence in the region's favourable demographic trends and economic outlook. More broadly, the Trust remains focused on core markets supported by strong underlying fundamentals including population growth, employment stability and balanced supply-demand conditions.

### Rent Collection

Rent collection remained strong in the first quarter of the year, with bad debts accounting for less than 1% of total operating revenues. The Trust's closely monitored receivables program continues to demonstrate its effectiveness.

### Rental Revenue

On a same store basis, the Trust's average occupied monthly rent per unit increased by 3.6% Y/Y to \$1,654 as at March 31, 2026, compared to \$1,596 in the same period of the prior year. This performance demonstrates the Trust's ability to continue to drive rental income growth within its stabilized portfolio.

# Operational and Financial Results

## Net and Occupied Average Monthly Rents (AMR) and Occupancy

Net AMR is defined as gross potential rents, including vacant units, divided by the total number of suites, and does not include revenues from parking, laundry, or other sources. Occupied AMR is defined as actual residential rents, excluding vacant units, divided by the total number of occupied units, and does not include revenues from parking, laundry, or other sources.

As at March 31,	Net AMR			Occupied AMR			Occupancy %

## Total Operating Revenue and NOI by Region - Total Portfolio

Transactional activity and stable portfolio operating performance resulted in total operating revenues and NOI growth of 16.5% and 15.1%, respectively, when compared to the prior year period.

## Operating Revenue and NOI by Region - Same Store Portfolio

The same store portfolio operating revenue increased by 1.8% Y/Y, while NOI grew by 2.8% over the same period, reflecting both top line expansion and effective expense management. Revenue growth was primarily driven by increases in market rents on natural turnover, complemented by modest gains in ancillary revenues through targeted strategic initiatives.

The stronger relative growth in NOI underscores disciplined cost control measures and ongoing expense mitigation efforts, including enhanced operational efficiencies and prudent management of controllable expenses, which collectively supported margin expansion comparative to the prior year.

## Operating Expenses

### Realty Taxes

For the three-month period ended March 31, 2026, total portfolio realty taxes increased relative to the comparative period, primarily attributable to the impact of acquisitions completed in 2025, as well as the addition of Maison Riverain Tower 1, which was delivered in 2025.

On a same store basis, realty taxes increased modestly Y/Y, reflecting typical underlying changes in property assessments across the portfolio and increasing municipal mill rates. Management continues to actively manage realty tax expense through a disciplined and proactive approach, including the pursuit of assessment appeals, where appropriate, in addition to the implementation of pre-roll review processes in Alberta, to identify and mitigate potential increases in advance of final tax billings.

### Utilities

Utility costs are inherently variable and can fluctuate period over period due to changes in both consumption levels and underlying utility rates. The tables below present a breakdown of utility expenses by type for the three-month period ended March 31, 2026, and March 31, 2025. Variances in total utility costs are primarily attributable to the expansion of the portfolio resulting from acquisitions and development delivery completed in 2025. Despite continued portfolio expansion, total net utility costs decreased Y/Y reflecting the impact of operating efficiencies and ongoing utility cost optimization initiatives across the portfolio.

On a same store basis, net utility expenses decreased Y/Y, reflecting category-specific changes in both rates and consumption. Hydro costs declined by ~10.4%, driven primarily by lower average rates during the period. The reduction reflects the continued impact of Management's strategic price monitoring and procurement initiatives implemented in Q4'25 to optimize hydro pricing across the portfolio. Natural gas expense decreased by ~28.0%, reflecting reductions in both consumption and rates, with the majority of the variance attributable to lower rates, including the impact of the removal of the federal carbon tax effective April 1, 2025.

Water expenses increased Y/Y as a result of both higher consumption and rate increases, however, the impact on net expense was more than offset by a significant increase in recoveries, which grew by over 100% compared to the prior year period. This increase in recoveries reflects the continued expansion of the Trust's water sub-metering program across the portfolio, enhancing cost recoverability and supporting more direct allocation of usage to Residents. Management remains focused on implementing operational measures and efficiency initiatives aimed at moderating water consumption levels over time.

As at March 31,	Net Utilities*			Same Store - Net Utilities*		
	Q1 2026 (\$)	Q1 2025 (\$)	Variance (%)	Q1 2026 (\$)	Q1 2025 (\$)	Variance (%)
Hydro	682,292	639,241	6.7	572,866	639,241	(10.4)
Natural Gas	657,987	809,647	(18.7)	582,731	809,647	(28.0)
Water	553,861	541,981	2.2	500,416	541,981	(7.7)
	<b>\$1,894,140</b>	<b>\$1,990,869</b>	<b>(4.9%)</b>	<b>\$1,656,013</b>	<b>\$1,990,869</b>	<b>(16.8%)</b>

\* Net of utility recoveries

### Other Operating Expenses

In addition to realty taxes and utilities, a notable contributor to the Y/Y increase in operating expenses was higher leasing incentives and advertising costs. These expenditures reflect continued investment in Resident retention and leasing activity, consistent with prevailing market conditions and competitive dynamics across the multifamily sector. Management remains disciplined and targeted in its deployment of these initiatives, with a focus on optimizing occupancy and supporting sustainable revenue performance across the portfolio.

## Debt Portfolio

The Trust's loan portfolio is comprised of long-term, fixed-rate mortgages secured by individual properties, along with an operating line of credit. The mortgage portfolio is diversified across multiple lenders and features staggered maturities to mitigate interest rate risk. As at March 31, 2026, the weighted average interest rate was 3.68%, with a weighted average remaining term to maturity of 7.34 years. The following table outlines mortgage maturities over the next five years and beyond.

### Income-Producing Property Mortgage Maturity by Year

## 97% Mortgage Debt - CMHC Insured

During Q1'26, the Trust completed the refinancing of its Stratford and Brantford portfolios, as well as one of the mortgage loans secured by 125 Wellington St. N., Hamilton, ON. These transactions generated net refinancing proceeds of ~\$20M. The Stratford and Brantford refinancings were executed as short-term bridge facilities with contractual maturities in 2026. Management intends to refinance these bridge loans into CMHC-insured mortgage financing in the near term.

Additionally, the Maison Riverain Tower 1 construction facility was fully repaid and discharged and was replaced with a CMHC-insured takeout mortgage. The new mortgage bears a fixed interest rate of 4.03% and has a 10-year term maturing on March 1, 2036. Construction financing remains in place for Maison Riverain Towers 2 and 3. Overall, this refinancing shifts Tower 1 from a short-term construction debt to a long-term fixed rate, insured financing, extending the Trust's weighted average debt term and increasing the proportion of long-term fixed rate debt within the Trust's leverage profile.

## Gap to Market

The Trust continues to advance its rent optimization strategy, supported by the existence of a meaningful gap between in-place rents and prevailing market levels. As at March 31, 2026, the Trust's estimated gap to market was approximately 22.2%, representing a significant embedded growth opportunity. Management is focused on strategically capturing this upside through disciplined turnover execution and in-place targeted rent increases, where supported by market conditions and applicable rent legislation. This approach is expected to support continued organic revenue growth as the Trust progresses in narrowing the gap to market.

As at March 31,	Q1 2026	Q1 2025
	% Gap to Market	% Gap to Market
<b>Ontario</b>		
GTHA	31.0	36.3
Western	25.6	30.5
Southwestern	29.7	33.5
Southeastern*	13.0	28.8
<b>Total Ontario</b>	<b>26.4%</b>	<b>33.5%</b>
<b>Alberta</b>	<b>1.4%</b>	<b>2.5%</b>
<b>British Columbia</b>	<b>21.8%</b>	<b>NA</b>
<b>Total Portfolio</b>	<b>22.2%</b>	<b>28.7%</b>

\* Effective Q1'26, Maison Riverain Tower 1 has been included in the Southeastern geographic segment. This asset is not subject to provincial rent control guidelines.

Maison Riverain  
280 Montgomery Street,  
Ottawa, ON

## Value Creation

For the three-month period ended March 31, 2026, the portfolio recorded a gross fair value increase of \$3.6M, reflecting continued progress in underlying operating performance and Management's focus on controllable drivers of value creation.

Fair value gains in the quarter were supported by growth in stabilized NOI, driven by continued execution on leasing strategies, portfolio optimization initiatives and ongoing expense management.

Market conditions during the quarter reflected a relatively stable transaction environment for multifamily assets. While benchmark bond yield and borrowing costs remain elevated, contributing to ongoing pressure on cap rates, this has been largely offset by sustained investor demand and confidence in the multifamily sector, supported by resilient fundamentals.

Against this backdrop, the portfolio's weighted average cap rate remained stable at 4.39% as at March 31, 2026, compared to 4.40% in the prior quarter with a modest 9 bps decline from the prior year period.

Management remains focused on advancing its value creation strategy through disciplined execution on organic growth initiatives and active asset management. The Trust's embedded gap to market, combined with continued focus on cost efficiency and capital allocation is expected to support further growth in stabilized cash flows over time, positioning the Trust to deliver sustained value creation and attractive risk-adjusted returns for Unitholders.

---

## Non-IFRS Financial Measures

Management prepares and releases audited annual financial statements in accordance with International Financial Reporting Standards (IFRS). In the report, financial measures not recognized under IFRS, which do not have a standard meaning prescribed by IFRS, are disclosed. These include Same Store NOI, Same Store calculations, and adjusted Cash Generated from Operating Activities (collectively, Non-IFRS Measures). Since these measures are not recognized under IFRS, they may not be comparable to similar measures reported by other issuers. Non-IFRS Measures are presented because Management believes they are relevant for evaluation purposes.

# Equiton Residential Income Fund Trust

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

---

### 1. Nature of operations

Equiton Residential Income Fund Trust (the “Trust”) is an open-ended real estate investment trust (“REIT”) established on March 1, 2016 under the laws of the Province of Ontario. The Trust qualified as a “mutual fund trust” (pursuant to subsection 132(6) of the Income Tax Act) and it was formed primarily to acquire income-producing properties located in Canada. The Board of Trustees (“Trustees”) intends to distribute or designate all taxable income directly earned by the Trust to unitholders of the Trust and to deduct such distributions and designations for income tax purposes. Accordingly, the Trust has not recorded a provision for income taxes.

---

### 2. General information and statement of compliance with IFRS

The consolidated financial statements of the Trust have been prepared in accordance with International Financial Reporting Standards (“IFRS Accounting Standards”) as issued by the International Accounting Standards Board (“IASB”). The consolidated financial statements have been prepared on a historical cost basis except for investment properties and certain categories of financial instruments, if any, that have been measured at fair value. The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements unless otherwise indicated.

The consolidated financial statements are presented in Canadian dollars, which is the Trust’s functional currency. The address of the Trust’s registered office is 1111 International Boulevard, Suite 500, Burlington, Ontario, L7L 6W1. The consolidated financial statements for the period ended March 31, 2026, were approved and authorized for issue by the Trust on May 12, 2026.

---

### 3. Summary of material accounting policies

The material accounting policies applied in the preparation of these consolidated financial statements are set out below.

#### Principles of consolidation

These consolidated financial statements include the accounts of the Trust and its controlled entity: Equiton Residential Income Fund Limited Partnership (the “Limited Partnership”). The results of the Limited Partnership will continue to be included in the consolidated financial statements of the Trust until the date that the Trust’s control over the Limited Partnership ceases. Control exists when the Trust has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

#### Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or significant influence. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. Related party transactions that are in the normal course of business and have commercial substance are measured at the amount agreed to by the related parties, which approximates fair value.

---

# Equiton Residential Income Fund Trust

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

---

### 3. Summary of material accounting policies (continued)

#### Joint arrangements

A joint arrangement is a contractual arrangement pursuant to which the Trust or a controlled entity and other parties undertake an economic activity that is subject to joint control, whereby the strategic financial and operating policy decisions relating to the activities of the joint arrangement require the unanimous consent of the parties sharing control. Joint arrangements are of two types - joint ventures and joint operations. A joint operation is a joint arrangement in which the Trust has rights to the assets and obligations for the liabilities relating to the arrangement. A joint venture is a joint arrangement in which the Trust has rights to only the net assets of the arrangement.

The Trust is party to a single joint arrangement, which is a joint operation, through a 75% co-ownership interest called Riverain Co-ownership ("Riverain"). Riverain includes an investment property under development located at 29 Selkirk Street and 2 Montreal Road in the City of Ottawa, Ontario (Note 7). Joint operations are accounted for by recognizing the Trust's proportionate share of the assets, liabilities, revenue, expenses and cash flows of the joint operation.

#### Investment properties

The Trust accounts for its investment properties using the fair value model in accordance with IAS 40 - Investment properties ("IAS 40"). Properties that are held for long-term rental yields or for capital appreciation or both are classified as investment properties. Investment properties also include properties that are being constructed or will be developed for future use as investment properties.

Investment properties are recorded initially at cost including transaction costs. Transaction costs include transfer taxes, professional fees for legal services, and initial leasing commissions to bring the property to the condition necessary for it to be capable of operating.

Additions to investment properties are expenditures incurred for the expansion or redevelopment of the existing property, or to maintain or improve its productive capacity. Productive capacity maintenance costs are major maintenance costs and tenant improvements. Subsequent to initial recognition, investment properties are recorded at fair value. The changes in fair value in each reporting period are recorded in the consolidated statement of income and comprehensive income. Fair value of the investment properties is determined using a combination of external independent valuations and internally prepared valuations. The external valuations are performed on a rotational basis by independent, qualified external appraisers.

Recent real estate transactions with similar characteristics and locations to the Trust's assets are also considered. The direct capitalization income method applies a capitalization rate to the property's stabilized net operating income which incorporates allowances for the vacancy, management fees, and structural reserves for capital expenditures for the property. The resulting capitalized value is further adjusted, where appropriate, for extraordinary costs to stabilize the income and non-recoverable capital expenditures.

---

# Equiton Residential Income Fund Trust

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

---

### 3. Summary of material accounting policies (continued)

#### Investment property under development

The investment property under development takes a substantial period of time to prepare for its intended use as an investment property. The investment property under development is initially recorded at the purchase price plus transaction costs.

Subsequent to acquisition, the cost of development properties includes all direct expenditures incurred in connection with their development and construction. These expenditures consist of all direct costs, realty taxes and borrowing costs. The development period commences when expenditures are being incurred and activities necessary to prepare the asset for its intended use are in progress. Capitalization ceases when substantially all the activities necessary to prepare the asset for its intended use are complete.

Properties under development are measured at cost until the earlier of the date construction is completed and the date at which fair value becomes reliably determinable.

#### Tenant deposits

Tenant deposits are recognized initially at the fair value of the cash received and subsequently measured at amortized cost. The Trust obtains deposits from tenants as a guarantee for returning the leased premises at the end of the lease term in a specified good condition or for specified lease payments according to the terms of the lease.

#### Revenue recognition

The Trust has retained substantially all of the risks and benefits of ownership of its investment properties and therefore accounts for leases with its tenants as operating leases.

Revenue from investment properties include rents from tenants under leases, parking income, laundry income and other miscellaneous income paid by the tenants under the terms of their existing leases. Rental revenue under a lease commences when a tenant has a right to use the leased asset and revenue is recognized pursuant to the terms of the lease agreement. Revenue is recognized systematically over the term of the lease, which is generally not more than twelve months. Other rental revenues such as parking revenues and laundry revenues are considered non-lease components and are within the scope of IFRS 15 - Revenue from Contracts with Customers. The performance obligation for property management and ancillary services is satisfied over time.

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

---

### 3. Summary of material accounting policies (continued)

#### Financial instruments and fair values

##### (i) Financial assets

In accordance with IFRS 9, 'Financial Instruments', financial assets are required to be measured at fair value on initial recognition. Subsequent to initial recognition, financial assets are categorized and measured based on how the Trust manages its financial instruments and the characteristics of their contractual cash flows. IFRS 9 contains three principal classification categories for financial assets:

- i) Measured at amortized cost,
- ii) Fair value through other comprehensive income, and
- iii) Fair value through profit or loss.

A financial asset is measured at amortized cost if it meets both of the following conditions

- i) It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Trust's financial assets include cash, restricted cash, tenant and other receivables, and loan receivable. All financial assets are recognized initially at fair value and subsequently at amortized cost using the effective interest method with the exception of the loan receivable which is subsequently measured at fair value through profit or loss.

#### Impairment – Expected Credit Loss Model:

For the impairment of financial assets, the Trust uses a forward-looking 'expected credit loss' ('ECL') model. The measurement options for the ECL are lifetime expected credit losses and 12-month expected credit losses.

The Trust adopted the practical expedient to determine ECL on receivables using a provision matrix based on historical credit loss experiences adjusted for forward-looking factors specific to the debtors and to the economic environment to estimate lifetime ECL.

##### (ii) Financial liabilities

In accordance with IFRS 9, 'Financial Instruments', financial liabilities are required to be measured at fair value on initial recognition. Subsequent to initial recognition, financial liabilities are measured based on two categories:

- i) Amortized cost, and
- ii) Fair value through profit or loss.

# Equiton Residential Income Fund Trust

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

---

### 3. Summary of material accounting policies (continued)

#### Financial instruments and fair values (continued)

##### (ii) Financial liabilities (continued)

Under IFRS 9, all financial liabilities are classified and subsequently measured at amortized cost except in certain cases. The Trust has no financial liabilities that meet the definitions of these specific cases. Financial liabilities consist of mortgages payable, construction loan payable, due to related parties, unit subscriptions held in trust, payables and accruals, bank loan payable, tenant deposits and distributions payable.

A financial liability is derecognized when the obligation under the liability is discharged, canceled or expires.

##### (iii) Transaction costs

Direct and indirect financing costs that are attributable to the issue of other financial liabilities measured at amortized cost are presented as a reduction from the carrying amount of the related debt and are amortized using the effective interest rate method over the term of the related debt. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to lenders, agents, brokers and advisers, and transfer taxes and duties that are incurred in connection with the arrangement of borrowings.

##### (iv) Fair value

Fair value measurements recognized in the statement of financial position are categorized using a fair value hierarchy that reflects the significance of inputs used in determining the fair values. Each type of fair value is categorized based on the lowest level of input that is significant to the fair value measurement in its entirety. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The fair value hierarchy for measurement of assets and liabilities is as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - Inputs for the asset or liability that are not based on observable market data.

#### Fair value of financial assets and liabilities

The fair values of cash, restricted cash, tenant and other receivables, amounts due to related parties, payables, construction loan payable, bank loan payable, tenant deposits and distributions payable approximate their carrying value due to the short-term maturity of those instruments.

# Equiton Residential Income Fund Trust

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

### 3. Summary of material accounting policies (continued)

#### Fair value of financial assets and liabilities (continued)

The fair value of the mortgages payable and loan receivable has been determined by discounting the cash flows of these financial instruments using March 31, 2026, and December 31, 2025, market rates for debts of similar terms.

	March 31, 2026		
	Fair Value Hierarchy	Carrying Value	Fair Value
<b>Assets:</b>			
Investment properties	Level 3	\$ 1,429,590	\$ 1,429,590
Loan receivable	Level 2	\$ 2,047	\$ 2,047
<b>Liabilities:</b>			
Mortgage payable	Level 2	\$ 800,170	\$ 720,456
	December 31, 2025		
	Fair Value Hierarchy	Carrying Value	Fair Value
<b>Assets:</b>			
Investment properties	Level 3	\$ 1,425,980	\$ 1,425,980
Loan receivable	Level 2	\$ 1,983	\$ 1,983
<b>Liabilities:</b>			
Mortgage payable	Level 2	\$ 683,812	\$ 615,094

#### Critical accounting estimates, assumptions, and judgments

Estimates and judgments are continually evaluated and are based on historical experience as adjusted for current market conditions and other factors. Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The Trust has made the following critical accounting estimates, assumptions, and judgments:

##### *Investment properties*

In determining estimates of fair values for its investment properties, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events. Should the following underlying assumptions change, actual results could differ from the estimated amounts:

- i. Property tenancies;
- ii. Market rents;
- iii. Market terminal capitalization rates;
- iv. Discount rates;
- v. Direct capitalization rates;
- vi. Economic environment and market conditions; and
- vii. Market activity.

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

---

### 3. Summary of material accounting policies (continued)

#### Critical accounting estimates, assumptions, and judgments (continued)

The critical estimates and assumptions underlying the valuation of the investment properties are outlined in Note 4.

#### *Joint operations*

When determining the appropriate basis of accounting for the Trust's investment in co-ownership, the Trust makes judgments about the degree of control that the Trust exerts directly or through an arrangement over the co-ownership's relevant activities.

The Trust has determined that its interest in the co-ownership is a joint operation (Note 7).

#### *Net assets attributable to unitholders*

Trust units are redeemable at the holder's option and therefore are considered a puttable instrument in accordance with International Accounting Standard 32 - Financial Instruments: Presentation ("IAS 32"), subject to certain limitations and restrictions. Puttable instruments are required to be accounted for as financial liabilities, except where certain conditions are met, in which case, the puttable instruments may be presented as equity. The Trust units do not meet the necessary conditions and have therefore been presented as net assets attributable to unitholders under IAS 32.

#### Future accounting policy changes

##### ***Standards and amendments issued but not yet effective***

##### ***IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments***

In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The Amendments include, among other things, clarification that a financial liability is derecognised on the 'settlement date' and the introduction of an accounting policy choice (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date.

The Amendments are effective for annual periods starting on or after January 1, 2026, with early adoption permitted for classification of financial assets and related disclosures only. The Trust is assessing the impact this amendment will have on its consolidated financial statements.

March 31, 2026

(in thousands of dollars)

---

### 3. Summary of material accounting policies (continued)

#### Future accounting policy changes (continued)

##### *IFRS 18 Presentation and Disclosure in Financial Statements*

In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements, which is intended to give investors more transparent and comparable information about the Trust's financial performance, thereby enabling better investment decisions. It will affect all entities using IFRS Accounting Standards. IFRS 18 introduces new sets of requirements to improve the Trust's reporting of financial performance and give investors a better basis for analyzing and comparing companies through:

- Improved comparability in the statement of profit or loss or income statement;
- Enhanced transparency of management-defined performance measures; and
- More useful grouping of information in the financial statements.

IFRS 18 also requires funds to provide more transparency about operating expenses, helping investors to find and understand the information they need. IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, but entities can apply it earlier. IFRS 18 replaces IAS 1. It carries forward many requirements from IAS 1 unchanged. The Trust is assessing the implications of IFRS 18 on its consolidated financial statements and disclosures and does not intend to early adopt this standard.

---

### 4. Investment properties

Reconciliation of the carrying amount for investment properties for the beginning and end of the financial year are as follows:

<b>Balance, January 1, 2025</b>	<b>\$ 1,153,289</b>
Purchase of investment property	99,200
Completion of development (reclassification within investment property, Note 5)	101,925
Building improvements to investment properties	18,762
Increase in fair value of investment properties	<u>52,804</u>
<b>Balance, December 31, 2025</b>	<b>\$ 1,425,980</b>
Building improvements to investment properties	3,426
Increase in fair value of investment properties	<u>184</u>
<b>Balance, March 31, 2026</b>	<b>\$ <u>1,429,590</u></b>

# Equiton Residential Income Fund Trust

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

### 4. Investment properties (continued)

The estimated fair values per these appraisals are as follows:

Region	March 31, 2026	December 31, 2025
Alberta	\$ 221,600	\$ 219,700
Greater Toronto and Hamilton Area	534,920	535,100
British Columbia	49,100	47,100
Southeastern Ontario	145,390	144,380
Southwestern Ontario	109,000	109,000
Western Ontario	369,580	370,700
	\$ 1,429,590	\$ 1,425,980

The Trust determined the fair value of each investment property based upon, among other things, rental income from current leases and assumptions about rental income from future leases reflecting market conditions at the applicable statement of financial position dates, less future cash outflow pertaining to the respective leases. The properties are appraised using several approaches that typically include a direct capitalization income method and a direct comparison approach.

Valuations prepared under the direct capitalization method include the use of a capitalization rate as part of the underlying assumptions.

Values are most sensitive to changes in capitalization rates, and the variability of cash flows. If the capitalization rate were to increase by 25 basis points ("bps"), the value of investment properties would decrease by \$79,127 (December 31, 2025 – decrease by \$72,922). If the capitalization rate were to decrease by 25 bps, the value of investment properties would increase by \$84,606 (December 31, 2025 – increase by \$78,286).

---

## Equiton Residential Income Fund Trust

### Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

---

#### 4. Investment properties (continued)

Capitalization rates used to generate the estimated fair values for the investment properties ranged from 4.00% to 5.40% at March 31, 2026 (December 31, 2025 – 4.00% to 5.40%) with a weighted average capitalization rate across the investment properties portfolio of 4.39% (December 31, 2025 – 4.40%).

---

#### 5. Investment property under development

	<b>March 31, 2026</b>	December 31, 2025
Opening balance	\$ 56,862	\$ 115,931
Property under development expenditures	9,704	42,856
Completion of development (reclassification within investment property, Note 4)	-	(101,925)
<b>Balance</b>	<b>\$ 66,566</b>	<b>\$ 56,862</b>

This property under development represents the Trust's 75% interest in Riverain (Note 7).

During the year ended December 31, 2025, Phase 1 of the investment property under development reached substantial completion and became available for its intended use. In accordance with IFRS, the Trust transferred Phase 1 from investment property under development to investment properties and recognized its 75% ownership interest, totaling \$101,925.

---

#### 6. Restricted cash

Restricted cash of \$1,513 (December 31, 2025 - \$787) represents unitholder subscriptions held in trust until the trade settlement date. These amounts will be returned to investors if the proposed unitholder subscriptions do not successfully proceed.

---

#### 7. Joint arrangement

The Trust's indirect interests in Riverain are subject to joint control and accounted for as a joint operation. The Limited Partnership entered into a co-ownership agreement with Selkirk & Main Holdings Inc. and is developing a multi residential property in Ottawa, Ontario. The co-ownership was formed on January 18, 2022 and is governed by co-owner's agreement effective as of that date. The co-ownership agreement stipulates that a co-owners committee be formed consisting of two members, of whom one member shall be appointed by each of the co-owners. All major decisions, as defined in the agreements, require the unanimous vote of the members of the co-owners committee. The Limited Partner's ownership interest is 75%. The project is being completed in three phases. Phase 1 has been completed and the Trust's proportionate interest in Phase 1 is reflected in Investment Properties. Phases 2 and 3 remain under construction and the Trust continues to capitalize its proportionate share of development costs related to these phases.

# Equiton Residential Income Fund Trust

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

### 7. Joint arrangement (continued)

The financial information in respect of the Partnership's indirect 75% proportionate share of the joint operation is as follows:

(in thousands of dollars)

	<u>March 31,</u> <u>2026</u>	<u>December 31,</u> <u>2025</u>
<b>Assets:</b>		
Cash	\$ 1,904	\$ 4,123
Tenant and other receivables	400	783
Prepaid expenses	918	44
Investment property	108,150	107,250
Investment property under development	<u>66,566</u>	<u>56,862</u>
<b>Total Assets</b>	<b><u>177,938</u></b>	<b><u>169,062</u></b>
<b>Liabilities:</b>		
Accounts payable and accrued liabilities	8,048	5,786
Mortgages Payable	102,370	-
Construction loan payable	<u>32,329</u>	<u>128,568</u>
Total liabilities	<u>142,747</u>	<u>134,354</u>
<b>Co-owners' Equity</b>	<u>35,191</u>	<u>34,708</u>
<b>Total Liabilities and Co-owners' Equity</b>	<b><u>\$ 177,938</u></b>	<b><u>\$ 169,062</u></b>

### 8. Loan receivable

On January 18, 2022, the Limited Partnership entered into an equity loan agreement with Selkirk & Main Holdings Inc. The Limited Partnership has agreed to provide loans to Selkirk & Main Holdings Inc. from time to time as equity funds are required for the joint operation of Riverain (Note 7) in principal amount equal to 12.5% of the required equity funds of the joint operation.

The equity loan bears in interest at a rate equal to 7.75% per annum. The equity loan is repayable upon the earlier of the following:

- the day upon which the first advance of any long-term financing for such phase is made following the construction thereof; and
- the day upon which the Selkirk & Main Holdings Inc. ceases to be a co-owner of the property or such phase.

# Equiton Residential Income Fund Trust

## Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

### 8. Loan receivable (continued)

The loan is secured as follows:

- a joint and several corporate guarantee and postponement from Selkirk & Main Holdings Inc. and Main and Main Asset Management Inc. for the full amount of the equity loan.
- a pledge in favour of the Limited Partnership of all of the issued and outstanding shares of the nominees;
- the co-owners charge made by Selkirk & Main Holdings Inc. in favour of the Limited Partnership (including the registered co-owners charge in favour of Equiton granted by the Nominees) which shall, in addition to the matters set out in Section 7.3(1) of the co-owners agreement, secure payment of the equity Loan.

The equity loan was assessed at March 31, 2026 to determine whether there is objective evidence of impairment. A loan investment is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of an asset, and that the loss event had a negative effect on these estimated future cash flows of that asset that can be estimated reliably. For the three months ended March 31, 2026, there was no provisions for loan investment losses. The fair value of the loan receivable is estimated to approximate its carrying value (Note 3).

### 9. Mortgages payable

	<u>2026</u>	<u>2025</u>
Mortgages payable	\$ 800,170	\$ 683,812
Deferred finance charges	<u>(35,315)</u>	<u>(30,249)</u>
	<b>764,855</b>	653,563
Less: current portion	<u>(24,131)</u>	<u>(47,876)</u>
Non-current mortgages payable	<u>\$ 740,724</u>	<u>\$ 605,687</u>

The mortgages are payable to various financial institutions and bear fixed interest rates ranging from 2.0% to 4.6% (2025 – 2.0% to 4.6%) and maturing at various dates ranging from 2026 to 2036 (2025 – 2025 to 2036).

The balances repayable as noted above are exclusive of the fair value adjustments recorded upon initial recognition of the mortgages that have been assumed. As of March 31, 2026, these fair value adjustments totalled \$8,860 (December 31, 2025 - \$9,155).

The mortgages payable are secured by the investment properties disclosed in Note 4 and are repayable as follows:

12 months from period end	\$ 24,131
13 to 24 months from period end	28,725
25 to 36 months from period end	16,571
37 to 48 months from period end	44,199
49 to 60 months from period end	70,212
Thereafter	<u>623,514</u>
	<u>\$ 807,352</u>

(in thousands of dollars)

---

#### 9. Mortgages payable (continued)

- (i) There are financial and non-financial covenants pertaining to the Bank of Montreal facilities and they were all met as at March 31, 2026.
  - (ii) The First National first mortgage on loan was assumed on the purchase of the 125 Wellington Street North, Hamilton, Ontario property. The difference between the fair value and carrying value of the mortgage was determined to be at a premium of \$134 at the assumption date.
  - (iii) The Peakhill Capital first mortgage on loan was assumed on the purchase of the 208 Woolwich Street South, Breslau, Ontario property. The difference between the fair value and carrying value of the mortgage was determined to be at a premium of \$660 at the assumption date.
  - (iv) The First National first mortgage on loan was assumed on the purchase of the 98 Farley, Guelph, Ontario property. The difference between the fair value and carrying value of the mortgage was determined to be at a premium of \$275 at the assumption date.
  - (v) The Canada ICI first mortgage on loan was assumed on the purchase of the 200 Edgar Lane, Sherwood Park, Alberta property. The difference between the fair value and carrying value of the mortgage was determined to be at a premium of \$3,516 at the assumption date.
  - (vi) The People's Trust first mortgage on loan was assumed on the purchase of 23 Lynnwood Drive, Brantford, Ontario property. The difference between the fair value and carrying value of the mortgage was determined to be at a premium of \$554 at the assumption date.
  - (vii) The Canada ICI mortgage was assumed on the purchase of 17627 63 St. NW, Edmonton, Alberta property. The difference between the fair value and carrying value of the mortgage was determined to be at a premium of \$6,494 at the assumption date.
- 

#### 10. Construction loan payable

##### *Land Loan Facility*

On October 16, 2023, Riverain entered into a new \$22,500 Land Loan facility agreement with Desjardins to refinance the phase two and phase three land located in Ottawa. The original Land Loan facility outstanding of \$24,000 was replaced and the loan differential of \$1,500 was repaid upon issuance of the first construction loan draw. The interest rate is fixed at 7.69% for 12 months equal to the lender's cost of funds plus 150 basis points (1.5%) with interest-only paid monthly.

The Land Loan converted to a variable interest rate on November 1, 2024, at the prime rate plus 75 basis points (0.75%). The land loan matured on November 1, 2025. During Q4-2025, the Land Loan of \$22,500 was replaced and the loan differential of \$9,500 was repaid upon the issuance of the first and second construction loan draw for phase three, Tower C. The \$13,000 Land Loan financing phase two, Tower B lands has a fixed interest rate of 4.46% for a 12-month term and matures on December 1, 2026.

---

## Equiton Residential Income Fund Trust

### Notes to the Consolidated Financial Statements

March 31, 2026

(in thousands of dollars)

---

#### 10. Construction loan payable (continued)

As at March 31, 2026, the outstanding balance is \$13,000 (December 31, 2025, \$13,000) of which the Partnership has recorded its 75%. The other co-owner and the Limited Partnership have provided a corporate guarantee and postponement of claim for the full loan plus interest and costs for the full duration of the existing land loan facility on phase two and phase three units and any renewals thereof.

##### *Construction Loan Facility*

On October 16, 2023, Riverain entered into an \$88,254 Construction Loan Facility (“CLF”) agreement with Desjardins to finance the construction of phase one. The CLF is a variable rate loan based on the prime interest rate increased by fifty basis points (0.50%). Accrued interest is due on the first day of the month. The CLF matures on November 1, 2026. In conjunction with the CLF, the Nominee entered into a \$1,500 revolving operating line of credit to bridge approved project costs between advances at the same variable interest rate as the CLF.

On March 7, 2024, the phase one commitment letter was amended to increase the maximum authorized amount on the CLF to \$106,954 with no additional equity contribution required. Draws on the CLF are completed once per month with the issuance of the construction report by the project monitor AMS Quantity Surveyors.

On January 22, 2025, the phase one commitment letter was amended for a second time to increase the maximum authorized amount on the CLF to \$106,954 with no additional equity contribution required. The maximum authorized amount for both the CLF and the line of credit facilities together is now \$106,954. The increase in authorized amounts were drawn to fund phase three pre-construction costs as they come due.

On June 13, 2025, the phase one CLF was converted to a Canadian Mortgage Housing Corporation (“CMHC”) insured facility which is funded by Desjardins. The maximum authorized amount on the CLF is \$127,721. The interest due monthly during the construction period is based on the prime rate less 50 basis points. Upon the first advance on June 13, 2025, the previous CLF outstanding balance of \$82,719 was discharged with Desjardins.

On September 11, 2025, the phase three, Tower C CMHC-insured construction facility, which is funded by Desjardins, commenced its first draw. The maximum authorized amount on the CLF is \$144,827 with a final advance date no later than August 16, 2028. The interest due monthly during the construction period is based on the prime rate less 50 basis points (0.50%).

As at March 31, 2026, the outstanding balance on the Tower C CLF is \$43,105 (December 31, 2025, \$30,703) of which the Partnership has recorded its 75%. Borrowings under each of these agreements are secured by a first collateral mortgage charge on the land and improvements and a general security agreement. As of March 31, 2026, all covenants were met.

The other co-owner and the Limited Partnership have provided a corporate guarantee and postponement of claim for the full loan amount plus interest and costs for the full duration of the existing construction loan facility on phase one construction and any renewals thereof.

Borrowings under each of these agreements are secured by a first collateral mortgage charge on the lands and improvements and a general security agreement.

#### 10. Construction loan payable (continued)

##### *Letter of credit*

On January 17, 2020, Riverain also entered into a \$500 Letters of Credit Facility (“LCF”) agreement with Desjardins, which can only be used to finance the municipal bodies and public utilities for development purposes. Letter of credits will be for a term of one year and will be subject to an annual fee of 1% upon issuance. The LCF had been extended for an additional 12-month term to February 1, 2023. On January 19, 2023, the LCF agreement was increased to \$2,000 in conjunction with the refinancing of the Land Loan.

On October 16, 2023, the LCF was increased to \$3,000 in conjunction with the Construction Loan Facility for a period of one year under the same terms and conditions. On June 13, 2025, upon conversion revolving to the CMHC insured CLF, the LCF for phase one set at \$2,632 along with a revolving operating line of credit of \$1,500. The line of credit was closed on December 16, 2025, with the final draw on CLF.

On September 11, 2025, a \$1,500 LCF was issued for Tower C, which can only be used to finance the municipal bodies and public utilities for development purposes. Letter of credits will be for a term of one year and will be subject to an annual fee of 1% upon issuance. As at March 31, 2026, the outstanding balance in \$nil (December 31, 2025- \$nil).

---

#### 11. Bank loan payable

The Limited Partnership has a credit facility with TD Commercial Bank for \$30,000 in the form of an operating loan. The facility bears interest at prime rate plus 1.00%.

There are financial and non-financial covenants pertaining to the facility. As of March 31, 2026, all covenants were met.

As of March 31, 2026, the Limited Partnership had drawn down \$28,995 (December 31, 2025 - \$28,950) of the facility.

---

#### 12. Related party transactions and balances

##### **(a) Agreement with Equiton Capital Inc.**

The Trust has entered into an Agency Agreement with Equiton Capital Inc. (the “Agent”), a related party through (a) sharing key management personnel with the Trust and (b) one of the Trustees of the Trust indirectly controls Equiton Capital Inc. The Trust has retained the Agent to act as a selling agent of the Trust units.

Pursuant to the Agency Agreement, the Trust incurred agency fees with the Agent related to the issuance of trust units in the amount of \$1,441 (December 31, 2025 - \$6,613), which are included in issuance costs in the statements of changes in net assets attributable to unitholders.

On December 19, 2016, the Trust instituted a DRIP whereby Canadian unitholders may elect to have their distributions automatically reinvested in additional units, retroactive to the commencement of the Trust.

During the period, the Trust made distributions of \$12,675 (March 31, 2025 - \$ 11,637). Of this amount, \$8,269 (March 31, 2025 - \$ 7,755) were reinvested through the DRIP.

The General Partner shall be entitled to a 20% interest in cash distributions of the Partnership, and a 20% interest in any increase in the equity value of the investment properties, calculated and payable at the time such increase in equity value is realized or the issuance of additional limited partner units by the Partnership. The General Partner has indicated that it will either defer payment of such distributions until such time as sufficient cash is available or to elect to receive such distributions in the form of limited partnership units of the Partnership. During the period, the Trust accrued distributions of \$2,534 (March 31, 2025 - \$2,332) to Equiton Residential Income Fund GP Inc.

#### 14. Asset management agreement

The property management services were performed by Equiton Partners Inc., a related party as same common management as the Trust. The compensation for providing the Property Management Services is paid equal to 4.0% of the gross income from the properties for the initial term and for each renewal. In addition, Equiton Partners Inc. is paid a fee equal to 5.0% of the total cost to (i) construct tenant improvements and/or coordinate the construction, modification, improvement, re-construction, or effecting of material repairs to any tenant premises at any of the Properties, or (ii) construct, modify, improve, re-construct or effect a material repair to any portion of the Property or Properties. During the period, the property management fee included in the property operating expenses is \$847 (March 31, 2025 – \$717).

Equiton Partners Inc. is also entitled to the following fees pursuant to the Asset Management Agreement:

##### (i) Transaction fee

The transaction fee is charged at 1.00% of the purchase price with respect to each property acquired or sold by the Trust. During the period, the transaction fee recorded in investment properties on the statement of financial position is \$nil (March 31, 2025 – \$nil).

##### (ii) Asset management fee

The asset management fee is charged at 1.00% annually with respect to the gross asset value of the assets in the Trust. The asset management fee is calculated and charged monthly. During the period the asset management fee recorded in the statement of income and comprehensive income is \$4,159 (March 31, 2025 – \$3,501).

##### (iii) Financing fee

The financing fee is charged at 1.00% of the loan amount with respect to each senior or first ranking financing transaction, at 0.50% of the loan amount with respect to each refinancing transaction and at 1.50% of the loan amount with respect to each mezzanine or non-first ranking financing transaction. During the period financing fees recorded as deferred financing fees in the mortgages payable on the statement of financial position is \$323 (March 31, 2025 – \$0).

Transactions with related parties are in the normal course of operations and are measured at the amount of consideration established and agreed to by the related parties which approximates fair value.

---

#### 15. Management of capital

The Trust defines capital that it manages as the aggregate of net assets attributable to unitholders and interest-bearing debt less cash. The Trust's objective when managing capital is to ensure that the Trust will continue as a going concern so that it can sustain daily operations. The Trust's primary objective is to ensure that it has sufficient cash resources to indirectly invest in real estate assets in order to provide adequate returns in the form of distributions to its unitholders. To secure the additional capital necessary to pursue these plans, the Trust may attempt to raise additional funds through the issuance of additional trust units.

(in thousands of dollars)

### 15. Management of capital (continued)

The Trust is subject to risks associated with debt financing, including the possibility that existing mortgages may not be refinanced or may not be refinanced on favourable terms or with interest rates less favourable than those of the existing debt. The Trust manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets.

The total managed capital for the Trust is summarized below:

	<b>March 31, 2026</b>	December 31, 2025
Mortgages payable	\$ 800,170	\$ 683,812
Construction loan payable	42,079	128,568
Bank loan payable	28,995	28,950
Cash	(3,242)	(6,573)
Net debt	<b>868,002</b>	834,757
Net assets attributable to unitholders	<b>638,652</b>	656,132
	<b>\$ 1,506,654</b>	\$ 1,490,889

### 16. Changes in non-cash operating items

	<b>March 31, 2026</b>	<b>March 31, 2025</b>
Payables and accruals	\$ 637	\$ (1,407)
Tenant deposits	260	462
Tenant and other receivables	(416)	25
Prepaid expenses	208	289
Units subscriptions held in cash	726	6,206
Due to/from related parties	<b>2,110</b>	1,112
	<b>\$ 3,525</b>	\$ 6,687

### 17. Commitment

As of March 31, 2026, the Limited Partnership has entered into contract with consultants as part of its joint arrangement in Riverain with its co-owner totalling \$4,729 of which \$995 is the balance to complete.

### 18. Financial instruments and risk management

#### Risks associated with financial assets and liabilities

Financial risks arise from financial instruments to which the Trust is exposed during or at the end of the reporting period. Financial risk comprises market risk, credit risk and liquidity risk. Management identifies, evaluates and monitors these risks throughout the year.

##### (i) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices due to currency risk, price risk, and interest rate risk. Due to the nature of the Trust's financial instruments, it has no exposure to currency or price risk.

##### *Interest rate risk*

The Trust is subject to risk associated with debt financings including the risk that credit facilities will not be refinanced on terms as favorable as those of existing indebtedness.

The Trust's objective in managing interest rate risk is to minimize the volatility of the Trust's income. As of March 31, 2026, the Trust is subject to a fair value risk through the mortgages which are primarily financed at fixed interest rates with the exception of one variable rate mortgage which subjects the Trust to a cash flow risk. The fair market value of the mortgage's payable is disclosed above. The construction loan payable and loan payable also subject the Trust to a cash flow risk due to the variable interest rates.

Receivables and payables are non-interest bearing and with a term of less than one year, so it is assumed that there is no interest rate risk associated with these financial assets and liabilities.

Tenant deposits are non-interest bearing, so it is assumed that there is no interest rate risk associated with these financial liabilities.

##### (ii) Credit risk

Credit risk is the risk that the counterparty to a financial asset will default resulting in the Trust incurring a financial loss. A substantial portion of the Trust's amounts receivable is with various tenants and individuals and is subject to normal industry credit risks.

The Trust's principal assets are residential buildings. Credit risk arises from the possibility that tenants may not fulfil their lease obligations. The Trust mitigates this credit risk by performing credit checks and due diligence on prospective tenants and on existing tenants when appropriate, and by negotiating leases for spaces of varying sizes.

The carrying amount of receivables is reduced through the use of an allowance account and the amount of the loss is recognized in the statement of income and comprehensive income within other expenses. When a receivable balance is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of income and comprehensive income. The total provision taken on the receivables as of March 31, 2026 is \$2,388 (December 31, 2025 - \$2,310).

The Trust's maximum credit risk exposure on March 31, 2026 is represented by the respective carrying amounts of the relevant financial assets in the statement of financial position.

(in thousands of dollars)

### 18. Financial instruments and risk management (continued)

#### (iii) Liquidity risk

Liquidity risk is the risk the Trust will encounter difficulties in meeting its financial liability obligations. The Trust's objective in minimizing liquidity risk is to maintain appropriate levels of leverage on its real estate assets. As of March 31, 2026, the Trust was holding cash of \$4,755 (Q1 2025 - \$13,918) of which \$1,513 (Q1 2025 - \$7,207) was restricted for the future issuance of units. The mortgages payable, construction loan payable and loan payable have repayment terms outlined in Note 9, Note 10 and Note 11, respectively.

March 31, 2026	<u>On Demand</u>	<u>1 Year</u>	<u>2-5 Years</u>	<u>&gt;5Years</u>
Mortgages payable	\$ -	\$ 24,131	\$ 159,707	\$ 623,514

Unit subscriptions held in trust	1,513	-	-	-
Distributions payable	-	4,283	-	-
Payables & accruals	-	16,737	-	-
	<u>\$ 34,250</u>	<u>\$ 54,901</u>	<u>\$ 192,036</u>	<u>\$ 623,514</u>
<b>December 31, 2025</b>	<b><u>On Demand</u></b>	<b><u>1 Year</u></b>	<b><u>2-5 Years</u></b>	<b><u>&gt;5Years</u></b>
Mortgages payable	\$ -	\$ 47,876	\$ 140,931	\$ 502,495
Construction loan payable	-	9,750	118,818	-
Bank loan payable	28,950	-	-	-
Due to related parties	1,632	-	-	-
Unit subscriptions held in trust	787	-	-	-
Distributions payable	-	4,403	-	-
Payables & accruals	-	16,100	-	-
	<u>\$ 31,369</u>	<u>\$ 78,129</u>	<u>\$ 259,749</u>	<u>\$ 502,495</u>

#### (iv) Environmental Risk

The Trust is subject to various Canadian laws relating to the environment. The Trust has formal policies and procedures dealing with limiting environmental exposures which are administered by Equiton Partners Inc. in their function as the asset manager. Costs related to environmental risk are mitigated by carrying environmental insurance. There is an exposure to financial risks arising from environmental factors which could cause a variation in earnings to the extent that costs may exceed such coverage.

### 19. Changes to comparative information

Certain comparative figures in the statement of cash flows have been reclassified to align with the presentation of current year. These changes relate solely to presentation and have no impact on previously reported net profit, cash flows, or equity.
